

PANGEA

THE BEATLES TRIBUTE BAND

Pangea – The Beatles Tribute Band will deliver own stage equipment incl. microphones, stands, mixing console (situated on the stage), in-ear monitoring system and cables. **Mixing will be done by band's sound engineer.** Connection to PA system will be done by two XLR cables with already mixed signal (main L + R).

Sound engineer has to deliver and prepare:

- **PA system** into which will be connected already mixed signal by two XLR cables
- **6pcs of plug 230V** (prepared on the right side of drum kit position)
- **4pcs of plug 230V** (prepared on the left side of drum kit position)
- **stage lights**
